

## MYTHLOGIC Announces Complete Line of Intel Sandy Bridge Systems

**Ann Arbor, MI – January 9, 2011** - MYTHLOGIC Computers Corporation [www.mythlogic.com](http://www.mythlogic.com) today announced its complete line of custom built desktops and laptops based on Intel's 2<sup>nd</sup> Generation Core series architecture, which improves and delivers increased media performance and other visibly smart improvements. Intel's 2<sup>nd</sup> Generation core series family of desktop and laptop processors bring new and visibly smart features such as Turbo Boost Technology 2.0, which automatically speeds up your processor when you need extra power. Hyper-Threading Technology, which allows each core of the processor to do two things at once. Also for the mobile line Wireless Display Technology 2.0 which brings wireless 1080p video streamed straight to your TV. Intel's 2<sup>nd</sup> Generation core series architecture can handle all your HD video, gaming, multimedia, photo sharing, and video editing needs.

MYTHLOGIC Computers will offer Intel's 2<sup>nd</sup> Generation core series in its complete gaming line including its Archon, Myrmidon, Chimera, and award winning Cerberus line of desktop machines also featured in its Perun business line, and its mobile line of computers.

MYTHLOGIC's Archon line of machines feature Intel's 2<sup>nd</sup> Generation core series processors, AMD graphics, 500GB HD, and Windows 7. It's ready to game with our industry leading testing and warranty starting under \$800.

MYTHLOGIC's Myrmidon and Chimera lines featuring Intel's 2<sup>nd</sup> Generation core series processors, SLI/CrossFireX ready motherboards, and ready to overclock from the factory or to doing the tweaking yourself with an Intel "K" fully unlocked processor. All that power hand tested and certified for starting under \$1100.

MYTHLOGIC's award winning Cerberus line of machines featuring the unlocked Intel Core i7-2600k, fully hand overclocked from the factory from the start. Featuring either CrossFireX or SLI cards which are also hand overclocked from the factory. This machine is the ultimate in performance, you will not find any part in this machine that hasn't been tested, hand built overclocked, and then tested again, and then tested some more. We leave nothing to chance and no component unchecked to get the absolute best in performance straight from the factory. Cerberus, exalted 'nuff said starting at \$3000.

All MYTHLOGIC systems come preloaded with Microsoft Windows 7 Home Premium x64. All models are fully customizable with a wide range of video cards, hard drives, SSDs, and other parts and accessories from our custom configurators on our website. In addition all systems ship with an industry leading 4 year limited warranty on ALL systems even mobile along with unlimited technical support. Also all systems ship with Innovations Cooling Diamond thermal compound and all systems pass our industry leading extensive test and benchmark suite before ever leaving our factory.
